

Candidates **who DO NOT have the equivalent of two full university degree credit courses in Mathematics** must write the Mathematics Pre-Admission Test. There are no exemptions.

**NOTE:** If you **DO NOT** write the test and **DO NOT** have two university level math credits that have been approved by the Faculty of Education AQ Office, then you will **NOT** meet the prerequisites for the Mathematics Intermediate Basic course.

The date, time and location for the test will be provided to applicants who have submitted a completed application form with all the supporting documentation. The fee for writing the test is \$50.00.

*The Faculty of Education AQ Office will inform applicants in writing of their admission status in the course.*

#### **DON'T KNOW if you have the equivalent of two full university degree credit courses in Mathematics?**

- Submit application for the Mathematics Intermediate Basic course **EARLY** to the Faculty of Education AQ Office, as the assessment of an application takes approximately 4-6 weeks to process. If you are required to write the pre-admission test, please allow adequate time to be able to meet the test date.
- Include university transcript(s) at the time of application so that the Faculty of Education AQ Office can assess your transcripts and verify whether or not you have met the academic prerequisite of having the equivalent of two full university degree credit courses in Mathematics. Candidates who do not have the equivalent of two full university degree credit courses in Mathematics must provide evidence of successful completion of the pre-admission test in Mathematics.
- Note that candidates who **DO NOT** write the test, and **DO NOT** have two university level math credits that have been approved by the Registrar's Office will not meet the prerequisites for the Mathematics Intermediate ABQ. **Candidates who attend or complete a course for which they do not have the required prerequisite(s) and for which they have not been accepted by the Continuing Education Office do so at their own risk.**

#### **DO YOU HAVE the equivalent of two full university degree credit courses in Mathematics?**

- Submit application for the Mathematics Intermediate Basic course to the Faculty of Education AQ Office by the appropriate deadline.
- Include university transcript(s) at the time of application so that the Faculty of Education AQ Office can assess your transcripts and verify whether or not they have met the academic prerequisite of having the equivalent of two full university degree credit courses in Mathematics.
